SUSTAINABLE INNOVATIONS

Target 2020: Launch 10 new sustainable products and services each year.

12
2020

- Examples of sustainable products and services:**
- Nexan Cable Walker
 - Biyorem oil spill absorption material
 - Ecolumi lighting fixtures
 - Fossil free Shrink Wrap
 - Carpet from reused materials

COMPETENCY

Target 2020: 100% of employees have undergone training in The Code.

"The Code"

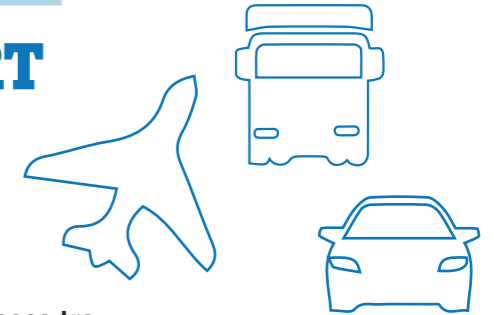

Summary and status Ahlsell Group 2020

Last year marked the end of Ahlsell's 2016-2020 strategy. We managed to reach both our carbon reduction target as well as our target on assessing sustainability risks in our supply chain. We were however less successful in reaching our recycling and transport targets.

Building on these achievements and recognising that we have more work ahead of us, we implemented a new five year strategy (2021 – 2025). Our new strategy includes two long-term goals: fossil free business by 2045 and 0 high risks in the supply chain by 2025.

TRANSPORT

Target 2020: Reduce the environmental impact of transportation by 20% in relation to external net sales.

Business travels in metric tonnes CO₂e

Transport in relation to total CO₂e in tonnes

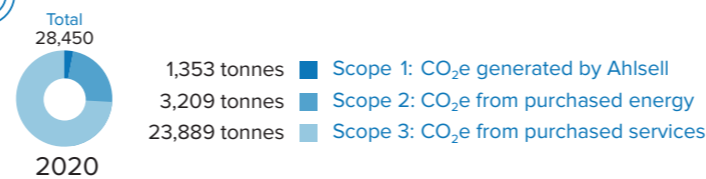

CO₂e FOOTPRINT

Metric tonnes CO₂e/ MSEK external net sales

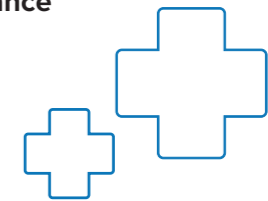

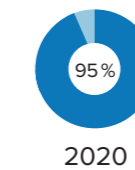

Target 2020: Reduce our CO₂e footprint by 20% in relation to external net sales

HEALTH & SAFETY

Employee work attendance

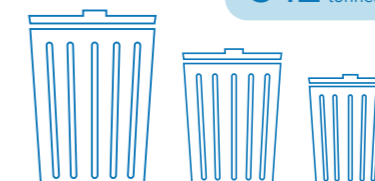

WASTE & RECYCLING

Target 2020: Reduce the metric tonnes waste by 20% in relation to external net sales. Increase recycling ratio by 20%.

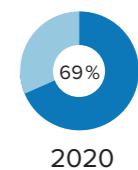

Total waste tonnes/ MSEK external net sales

Total waste 2020
10,820 tonnes

Hazardous waste
542 tonnes

Recycling ratio

RESPONSIBLE SOURCING

Target 2020: Follow up 50% of our suppliers' purchase value in accordance with the requirements of the Code of Conduct.

Target 2020: 100% of our suppliers fulfil Ahlsell's Code of conduct.

Followed up suppliers, % of purchased value
